

## Special Issue on Sex chromosome aneuploidies

### INTRODUCTION

- 197 Sex chromosome aneuploidies in 2020—The state of care and research in the world**  
 Claus H. Gravholt, Nicole Tartaglia, and Christine Disteche  
*Published online 4 June 2020*

### RESEARCH REVIEWS

- 202 The epidemiology of sex chromosome abnormalities**  
 Agnethe Berglund, Kirstine Stochholm, and Claus Højbjerg Gravholt  
*Published online 7 June 2020*
- 216 Epigenetics and genomics in Klinefelter syndrome**  
 Anne Skakkebak, Mette Viuff, Morten M. Nielsen, and Claus H. Gravholt  
*Published online 2 June 2020*
- 226 Genes that escape from X-chromosome inactivation: Potential contributors to Klinefelter syndrome**  
 Maria Jose Navarro-Cobos, Bradley P. Balaton, and Carolyn J. Brown  
*Published online 22 May 2020*
- 239 Integration and reanalysis of transcriptomics and methylomics data derived from blood and testis tissue of men with 47,XXY Klinefelter syndrome indicates the primary involvement of Sertoli cells in the testicular pathogenesis**  
 Sofia B. Winge, Samuele Soraggi, Mikkel H. Schierup, Ewa Rajpert-De Meyts, and Kristian Almstrup  
*Published online 25 May 2020*

### RESEARCH ARTICLE

- 256 Copy number variation burden does not predict severity of neurodevelopmental phenotype in children with a sex chromosome trisomy**  
 Hayley S. Mountford, Dorothy V. M. Bishop, Paul A. Thompson, Nuala H. Simpson, and Dianne F. Newbury  
*Published online 26 May 2020*

### RESEARCH REVIEW

- 267 41,XX<sup>Y</sup> male mice: An animal model for Klinefelter syndrome**  
 Joachim Wistuba, Cristin Beumer, Ralph Brehm, and Jörg Gromoll  
*Published online 20 May 2020*

### RESEARCH ARTICLES

- 279 Epigenetic and transcriptomic consequences of excess X-chromosome material in 47,XXX syndrome—A comparison with Turner syndrome and 46,XX females**  
 Morten Muhlig Nielsen, Christian Trolle, Søren Vang, Henrik Hornshøj, Anne Skakkebak, Jakob Hedegaard, Iver Nordentoft, Jakob Skou Pedersen, and Claus Højbjerg Gravholt  
*Published online 3 June 2020*
- 294 Confirmatory testing illustrates additional risks for structural sex chromosome abnormalities in fetuses with a non-invasive prenatal screen positive for monosomy X**  
 Kristen L. Sund, Divya Khattar, Theresa Boomer, Samantha Caldwell, Lisa Dyer, Robert J. Hopkin, and Teresa A. Smolarek  
*Published online 1 June 2020*

(Continued from overleaf)

**RESEARCH REVIEWS**

- 302 Gonadal dysfunction and beyond: Clinical challenges in children, adolescents, and adults with 47,XXY Klinefelter syndrome**  
 Michael Zitzmann and Julia Rohayem  
*Published online 16 May 2020*
- 313 Human sex chromosome aneuploidies: The hypothalamic–pituitary–gonadal axis**  
 Alan D. Rogol  
*Published online 14 March 2020*
- 320 Minipuberty in Klinefelter syndrome: Current status and future directions**  
 Lise Aksglaede, Shanlee M. Davis, Judith L. Ross, and Anders Juul  
*Published online 1 June 2020*

**RESEARCH ARTICLE**

- 327 High prevalence of cardiometabolic risk features in adolescents with 47,XXY/Klinefelter syndrome**  
 Shanlee M. Davis, Sophia DeKlotz, Kristen J. Nadeau, Megan M. Kelsey, Philip S. Zeitler, and Nicole R. Tartaglia  
*Published online 18 May 2020*

**RESEARCH REVIEWS**

- 334 Metabolic and cardiovascular risk factors in Klinefelter syndrome**  
 Matteo Spaziani and Antonio F. Radicioni  
*Published online 26 May 2020*
- 344 Morbidity in Klinefelter syndrome and the effect of testosterone treatment**  
 Simon Chang, Anne Skakkebaek, Shanlee M Davis, and Claus H Gravholt  
*Published online 4 June 2020*
- 356 Germ cell loss in Klinefelter syndrome: When and why?**  
 Margo Willems, Inge Gies, and Dorien Van Saen  
*Published online 15 May 2020*

**RESEARCH ARTICLES**

- 371 Testicular function in boys with 47,XYY and relationship to phenotype**  
 Shanlee M Davis, Luke Bloy, Timothy P.L. Roberts, Karen Kowal, Amanda Alston, Aysha Tahsin, Alyssa Truxon, and Judith L Ross  
*Published online 16 June 2020*
- 386 Rare sex chromosome variation 48,XXYY: An integrative review**  
 Amy A. Blumling, Kristy Martyn, Amy Talboy, and Sharron Close  
*Published online 5 June 2020*
- 404 Family experiences and attitudes about receiving the diagnosis of sex chromosome aneuploidy in a child**  
 Kirsten A. Riggan, Sharron Close, and Megan A. Allyse  
*Published online 17 March 2020*
- 414 Current survey of early childhood intervention services in infants and young children with sex chromosome aneuploidies**  
 Talia Thompson, Susan Howell, Shanlee Davis, Rebecca Wilson, Jennifer Janusz, Richard Boada, Laura Pyle, and Nicole Tartaglia  
*Published online 25 May 2020*

(Continued from overleaf)

**RESEARCH REVIEW**

- 428 Early neurodevelopmental and medical profile in children with sex chromosome trisomies: Background for the prospective eXtraordinary babies study to identify early risk factors and targets for intervention**  
Nicole Tartaglia, Susan Howell, Shanlee Davis, Karen Kowal, Tanea Tanda, Mariah Brown, Cristina Boada, Amanda Alston, Leah Crawford, Talia Thompson, Sophie van Rijn, Rebecca Wilson, Jennifer Janusz, and Judith Ross  
*Published online 7 June 2020*

**RESEARCH ARTICLES**

- 444 The behavioral profile of children aged 1–5 years with sex chromosome trisomy (47,XXX, 47,XXY, 47,XYY)**  
Evelien Urbanus, Hanna Swaab, Nicole Tartaglia, Lisa Cordeiro, and Sophie van Rijn  
*Published online 20 May 2020*
- 456 Adaptive functioning in children and adolescents with Trisomy X: An exploratory analysis**  
Kristen Wigby, Lisa Cordeiro, Rebecca Wilson, Kathleen Angkustsiri, Tony J. Simon, and Nicole Tartaglia  
*Published online 17 June 2020*
- 469 Executive function in XXY: Comparison of performance-based measures and rating scales**  
Jennifer Janusz, Caroline Harrison, Cristina Boada, Lisa Cordeiro, Susan Howell, Nicole Tartaglia, and Richard Boada  
*Published online 9 June 2020*
- 482 Neuropsychological functions, sleep, and mental health in adults with Klinefelter syndrome**  
Krister W. Fjermestad, Rene Huster, Christina Thunberg, Simen Stokke, Claus H. Gravholt, and Anne-Kristin Solbakk  
*Published online 16 May 2020*
- 493 Sex chromosome aneuploidy alters the relationship between neuroanatomy and cognition**  
Allysa Warling, Siyuan Liu, Kathleen Wilson, Ethan Whitman, François M. Lalonde, Liv S. Clasen, Jonathan D. Blumenthal, and Armin Raznahan  
*Published online 8 June 2020*

**RESEARCH REVIEWS**

- 506 Psychological functioning, brain morphology, and functional neuroimaging in Klinefelter syndrome**  
Anne Skakkebaek, Claus H. Gravholt, Simon Chang, Philip J. Moore, and Mikkel Wallentin  
*Published online 28 May 2020*
- 518 Specific learning disorders in sex chromosome aneuploidies: Neural circuits of literacy and mathematics**  
Iliana I. Karipidis and David S. Hong  
*Published online 28 May 2020*

**COVER FIGURE**

The cover image is based on the Review Article *Germ cell loss in Klinefelter syndrome – when and why?* by Margo Willems et al., <https://doi.org/10.1002/ajmg.c.31787>.

Volume 184C, Number 2 was mailed the week of June 15, 2020.
